PROFESSIONAL SUMMARY

Aspiring Software Engineer specializing in AI, Machine Learning and full-stack web development. Proven ability to integrate Agile methodologies into development workflows. Committed to delivering scalable technical solutions and driving innovation within dynamic, forward-thinking IT teams.

EDUCATION

Integrated Master of Computer Applications (5-Year Program) **2022 – 2027**
Amrita Vishwa Vidyapeetham
- Current CGPA: 8.92

Higher Secondary (Commerce Stream: Business/Accounting) **2022**
The Choice School (Central Board of Secondary Education)
- Aggregate Marks: 92.3%

Secondary School **2020**
The Choice School (Central Board of Secondary Education)
- Aggregate Marks: 88.9%

EXPERIENCE

Infosys Springboard – Intern **2025**
- Completed a one-month internship in a team-based environment
- Contributed to the development of an Automatic Number Plate Recognition (ANPR) system
- Assisted in building Automated Traffic Control and Classification (ATCC) solutions
- Gained hands-on experience in real-world problem solving and collaborative development

G10X – Intern **2025**
- Collaborated with a project team to design and implement a Retrieval-Augmented Generation (RAG) system
- Collaborated with a cross-functional team, communicating progress and blockers in daily check-ins
- Applied knowledge distillation techniques to fine-tune a smaller student model using a large LLM (teacher), improving information retrieval accuracy and system performance

PROJECTS

Theeram Backwaters Venue Booking & Management System (Client Project) **2026**
- Aim: Design and deploy a full-stack web application for efficient venue booking, event management and real-time pricing automation for a commercial client
- Functionalities: Dynamic booking system with conflict detection, real-time availability, automated pricing (GST and add-ons), payment tracking, capacity validation and receipt generation; ensured secure data handling and an optimized responsive UI
- Conducted unit testing and debugging to ensure reliable functionality
- Tools and Technologies: React.js, PHP, MySQL, HTML, CSS, TypeScript
- Duration: 2 months | Type: Individual Client Project

Alzheimer's Disease Prediction using AI with Personalized Treatment Recommendation System **2025**

- Aim: Predict Alzheimer's Disease early using CNN and DNN models trained on MRI scan data
- Functionalities: MRI scan–based disease prediction using CNNs and DNNs, online appointment booking, early-stage diagnosis support and personalized treatment recommendations
- Conducted unit testing and debugging to ensure reliable functionality
- Tools and Technologies: Python, Django, SQLite, HTML, CSS, JavaScript
- Duration: 4 months | Team Size: 6 members

Community Service System **2024**

- Aim: Design and develop a web-based platform for reporting, tracking and resolving community issues related to police, electricity and water services
- Functionalities: User issue reporting, public issue visibility, automated notifications, authority-side issue management and a user feedback system for resolution tracking
- Conducted unit testing and debugging to ensure reliable functionality
- Tools and Technologies: MySQL, HTML, CSS, JavaScript, phpMyAdmin
- Duration: 4 months | Team Size: 3 members

TECHNICAL SKILLS

- **Languages:** Python, Java, SQL, PHP
- **Web Development:** HTML, CSS
- **AI/ML:** Deep Learning, CNN, DNN, Natural Language Processing, Retrieval-Augmented Generation (RAG), Knowledge Distillation
- **Databases:** MySQL
- **Developer Tools:** VS Code, GitHub Actions, phpMyAdmin
- **Core Concepts:** Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP)

CERTIFICATIONS

- Introduction to Artificial Intelligence, Natural Language Processing & Deep Learning — Infosys Springboard — Jan 2024
- Generative AI – Google — Jun 2024
- Business Analysis Foundations – LinkedIn — Jun 2024
- Building an Agile Mindset – Infosys Springboard — Jul 2024
- Introduction to Data Science – Infosys Springboard — Aug 2024
- Deep Learning for Developers – Infosys Springboard — Aug 2024
- Python for Data Science – Infosys Springboard — Feb 2025
- Software Engineer Intern – HackerRank — Jun 2025

TEST SCORES

- Core Skills Test, British Council – CEFR C1 (Advanced), Score: 511 — Sep 2024
- EF SET English Certificate – CEFR C2 (Proficient), Score: 75/100 — Jan 2026

INTERPERSONAL ATTRIBUTES

Effective Communicator, Team Player, Time Management, Critical Thinking and Problem-Solving, Flexibility and Adaptability, Leadership

LANGUAGES KNOWN

English, Malayalam, Hindi, Tamil
